transmitted by facsimile to Fax No.: 703-872-9306 addressed to Examiner Shrivastav at the Patent and Trademark  
Office.

Date 10-5-04

Jason A. Polzin  
Signature

DECLARATION UNDER 37 C.F.R. §1.131

WE, Jason A. Polzin, Stephen J. Riederer, and David G. Kruger, being duly  
sworn, depose and say:

1. That we are the inventors for the above-identified Patent Application;
2. That we have reviewed the claims of this Application;
3. That we conceived in the United States, prior to September 25, 2001, the  
effective date of the cited reference, USP 6,671,536, the invention as set forth in the  
aforementioned claims, and in particular, a technique of correcting gradient non-  
linearities in image data in which image data is acquired of a subject in motion in a

S/N:10/752,656

presence of gradient non-linearities. Warping from acquiring image data of a subject in motion in the presence of gradient non-linearities is then corrected.

4. Attached as Exhibit A is a copy of an electronic lab book entry entitled, "Moving Table (ADVANCE) GradWarp correction", setting forth particulars of the claimed invention. The lab book entry was made prior to September 25, 2001 and, therefore, provides evidence that we conceived of the invention prior to September 25, 2001.

5. That from prior to September 25, 2001, to May 17, 2002, the filing date of USP 6,707,300, from which the above-captioned application is a continuing application and claims priority, we diligently worked toward reducing the aforementioned invention to practice and worked with patent counsel in the preparation of a patent application for the claimed invention.

That the statements made herein are of our own knowledge and are true and made on information and belief that are believed to be true.

We acknowledge that any willful false statements and the like made herein are punishable by fine or imprisonment, or both, and may jeopardize the validity of the application or any patent issuing thereon.

  
Jason A. Polzin
